

# Industrial Placement Internship

The award winning Landscape and Urban Design Practice at Mott MacDonald creates memorable and site specific landscapes for people and places. A key element in our approach is understanding the environment, its physical attributes and cultural context. This, combined with embracing innovative and informed design approaches, contributes to the creation of unique spaces.

The landscape architecture and urban design team are looking for a talented and enthusiastic person to join us for an **industrial placement year**. If you joined us, you would work on a wide range of private and public sector projects, including many of international importance that will influence generations to come. If you would like the opportunity to work with our teams in our Cambridge, London or Leeds offices, then please get in touch with Collette Patterson.

"The level of exposure to the spectrum of elements that make up landscape architecture has been eye opening and invaluable. This experience that has significantly increased my understanding of the profession"

"The depth and scale of projects I worked on during my time with Motts provided me with invaluable technical and design skills which will greatly benefit my future career"
